

GAVES IN SOUTHERN OREGON.
A Newspaper Expedition Discovers Cave
and Halls to Be Wonderful.

SAN FRANCISCO, July 11.—The Examiner this morning announces the discovery of enormous caverns in Josephine county, Oregon, about twelve miles north of the California line, and about forty miles from the coast. The Examiner's exploring party visited the caverns recently, the owner of Grant's Pass, Oregon, on the line of the Oregon and California branch of the Southern Pacific Railway. From there the party travelled thirty miles by stage to Klamath, and then went to the mountains with pack trains and horses. Two openings in the cave were discovered. These openings look like small fissures in a great limestone cliff. This limestone extends for miles and appears massive and solid outside, but is honeycombed with cracks and crevasses which extend for miles and are without any outlet.

Many of the passageways within the cave are described as of great beauty, containing semi-transparent stalactites, giant columns, and streams of water. The water flows from the main opening to the cave, but it was there that the party entered. They spent a week in exploring the caverns, and found them to be large and chambered. Several miles from the entrance they discovered a small lake of clear water and a waterfall thirty feet high. Large numbers of bats were seen in the caverns.

The only sign of any animal life was a short distance from the entrance, where a few bats were seen.

The bats were captured to be fully as large as the marmot in Kentucky.

BEAT ANYTHING HE HAS HEARD.

Secretary Foster's Opinion of Powderly's Open Letter to Him.

WASHINGTON, July 11.—Grand Master Workman Powderly's open letter to Secretary Foster denounces the Secretary as being wholly ignorant of the merits of the plate printers' difficulty. A large part of the letter is as follows:

"I have received your letter of inquiry concerning the strike of the plate printers, and I am sorry to say that I have no knowledge of the cause or its history. I have been unable to find any reliable information on the subject, and I am compelled to leave it to you to decide what course to pursue. I hope you will let me know when you have made up your mind."

The Secretary said that the letter was so well written that he had no objection to its being printed as a campaign document. He did not purpose to enter into a controversy with Mr. Powderly on such a basis.

ADVENTURE IN THE SOUTH SEAS.

Shipwrecked Sailors Caught by Savages and Bound to the Stake.

PURRUM, Me., July 11.—Capt. Jos. Parry of the barkentine Hustler has just arrived from a long sea voyage. The Hustler was launched in Bath last November, and sailed for Philadelphia light, thence for Seattle with a cargo of iron pipe.

While going round Cape Horn bad weather was encountered and the vessel was wrecked on a sunken rock in Nassau Bay, forty miles west of Descent Island. The crew left in the boats with nothing but what they stood in and rotted. They were captured by savages, who were the missionaries station at Surinam, with several English missionaries and a station for the relief of shipwrecked crews. The Captains and crew were captured and carried across the country from Sandy Point, bound for the missionary station, were captured by savages, were bound to trees, and forced to march, the Captains and crew were bound to their hands free, and, drawing a revolver, shot one of the Indians. This so frightened the rest of the Indians that they left the Captains and crew. After being held twenty-five days in this locality they left for Buenos Ayres; thence they went to Southampton and from there to New York.

THAT CHINESE DIFFICULTY.

LOCKPORT, July 11.—In an interview with United States Commissioner John E. Pound this morning on the opinion expressed by Attorney-General Miller that Chinese convicted of illegal entry into the United States should be returned to China, that official stated that, while the opinion was entitled to great respect, it was not the appropriate future course that should be taken, so far as Chinese are concerned. He was responsible primarily to the Circuit Judge of his district, and should that official consider the matter, he would be governed by that decision.
